## European Innovation

Founded in 1756, the family-owned Riedel glassworks in Austria was the first to create wineglasses shaped to complement specific varietals. Riedel's revolutionary designs reflect the company's defining principle: A wine will best express its personality in a glass fine-tuned to its taste and aroma.

## Give the Gift of Riedel

Riedel glassware makes a superb gift for a wedding or other special celebration. Combined with a decanter, Riedel glasses allow novice wine enthusiasts to discover the joys of wine tasting and provide wine connoisseurs with an impressive new collection.

## Featuring: Riedel

Riedel's stemless wine tumblers are shaped for the relaxed, everyday enjoyment of wine.

### An Investment Worth Savoring

A fine wine collection goes beyond the bottle: it also entails owning the proper glassware for tasting. Choosing the right glass to pair with each wine varietal is essential to enjoying your collection, as the correct glass will help develop the finer characteristics of a wine.
